# OFFICE CONCEPTS

Office furniture from the Nowy Styl Express offer means practical, simple, robust functionality, which can be installed efficiently. Thanks to its unique design, planning your office, within accounts,

secretarial and managerial or for use in your home can be achieved using your own inspirational ideas. Ergonomic chair – recommended for long working periods at your desk.

**TRAVEL agency** ..... p. 6

**ACCOUNTING office** ..... p. 8

**SECRETARY'S office** ..... p. 10

**NOTARIAL office** ..... p. 12

**CONFERENCE room** ..... p. 14

**HOME office** ..... p. 16

This label is found on every new product introduced to the offer.

Models bearing this label have been designed exclusively for the Nowy Styl company by affiliated designers.

We use this label to designate models that have a synchronized motion system, recommended for long hours working at a desk.

## Castors

All office armchairs and swivel chairs in the Express offer are available with self-braking castors for carpeted surfaces. Alternative castors for wooden and hard surfaces can be ordered.

- Self-braking castors for carpeted surfaces. Hard, plastic castors move lightly over soft surfaces such as rugs and fitted carpets (available in the *Express offer*).

- Self-braking castors for wooden and hard surfaces. Plastic castors are covered with a thin layer of rubber that protects the surfaces of parquets, panels and stone floors from damage when the chair moves across them.

 NEW

Elements used

**DB-02**

**Rounded additional desk**  
136 × 40 h=74

- An extension supported by one leg makes it possible to connect two desks and create an additional work surface.
- The extension can freely accommodate two chairs.
- The leg of the extension has a 30mm height levelling foot.

## TRAVEL agency

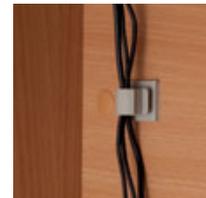

Within the travel agents the workstation needs to offer the ability for the client and the administrator to view the monitor to make the holiday selection of their choice. Typically workstations require an extension that offers work comfort and additional workspace.

In a shared office environment of 2 or more personnel, we suggest the use of a dividing screen panel for privacy and functionality. Your workstation can be increased by adding a free standing pedestal.

### Examples of the system's functions and advantages

- L-shaped desks recommend using one of these solutions:
- setting up a free-standing pedestal under the desktop
- using a metal leg
- combining a free-standing pedestal and desktop with the help of an angle bracket (as in the imagery).

- Plastic clips (optional) enable cables to be run aesthetically under the desk.

### BR-05L/BR-05R

**L-desk**  
137 × 100/68 × 55 h=74

- L-shaped desk – a desktop in the shape of an „L“ enables ergonomic configurations of different work station combinations.
- Desktop made of 25 mm melamine coated chipboard; the desktop edges are protected by durable, 2 mm ABS edge banding in the face colour of the MFC.
- The desk has 2 cable outlets.

### Intrata O

→ details, p. 26

### Intrata V

→ details, p. 32

Elements used

**KM-01**

**Mobile pedestal**  
43 × 54 h=60

- The mobile pedestal has a central lock, enabling all the drawers to be locked at once.
- The drawers are made of melamine coated chipboard.
- The castors enable the free-standing pedestal to be moved anywhere.
- The drawers have metal roller-bearing slides.

## ACCOUNTING office

Our furniture offers traditional solutions for open plan areas with the use of dividing screen panels and fabric covered pinable and are available in two sizes. It offers acoustic reduction, ability to use screen hung organisational accessories, thus giving a personalised space.

### Examples of the system's functions and advantages

- Fabric covered pinable boards, available in two sizes, make it possible to freely configure their positions on the panel that divides desks, depending on where the monitor screen is situated on the desk.
- Thanks to the possibility of pinning photos, calendars or different types of notes to them, they give an individual character to each work station.

- Cable outlets – positioned on both sides of the desktop – enable you to place equipment anywhere and the utilisation of cable trays keeps cables tidy.

### BR-04

#### Double-wave chipboard desk 160 × 68 h=74

- Specially profiled desktop enables free support of the arms, ensuring comfort and ergonomic work conditions.
- Desktop made of 25 mm melamine coated chipboard; the desktop edges are protected by durable, 2 mm ABS edge banding in the face colour of the MFC.
- The desk has 2 cable outlets.

### Perfect

- details, p. 30

Elements used

KS-01

Free-standing pedestal  
43 × 54 h=71,5

- The option to fit a free standing pedestal below your workstation, alternatively it could be placed at the end of your work surface and an additional top can be supplied to provide more space.
- Possibility of adjusting the level within a range of +15 mm – levels unevenness of the floor.

right door

left door

## SECRETARY'S office

The Secretary's & administration offices are important areas within any company and workstations must be capable of providing enough space and functionality for office equipment and documentation.

The simplicity and solid workmanship of our furniture means that it is easy to assemble, and also allows you to both economically and attractively furnish any office space.

Finishes of the furniture are available in the three most popular colours that can ideally match any interior and give it a warm character.

### Examples of the system's functions and advantages

→ For L-shaped desks, we recommend using one of these solutions:

- setting up a free-standing pedestal under the desktop
- using a metal leg (as in the arrangement)
- combining a free-standing pedestal and desktop with the help of an angled bracket.

→ Solid angle brackets linking individual elements are available in the standard (combining a desk with a free-standing pedestal).

### BC-06L i BC-06R

L-shaped desk/C-leg  
160 × 100/68 × 55 h=74

- Combining an interesting shape of desktop with a metal, kwarc-coloured leg makes the desk suitable for any type of office.
- Desktop made of 25 mm melamine coated chipboard; the desktop edges are protected by durable, 2 mm ABS edge banding in the face colour of the MFC.
- The desk has 2 cable outlets.

### Stillo

→ details, p. 28

Elements used

**RG-01 and DR-01**

**Cabinet**  
80 × 35 h=180,6

- 50H cabinet; 5 rows of files.
- Made from 18 mm melamine chipboard.
- The options available – open fronted bookcase or hinged doors. The cabinets offer the ability to link side by side.
- Each set of cabinet is equipped with an additional furniture screw that enables adjoining of two units of furniture.
- Possibility of adjusting the level of the cabinets and sets of shelves within a range of +15 mm.
- Elegant metal handles.

## NOTARIAL office

In a notarial office, just like in other offices, the place where you meet with clients or employees plays an essential role. Combining two desks with each other using an extension makes it possible to freely accommodate extra chairs for guests. You can make an additional space for meetings thanks to the convenient and comfortable *Club* armchairs together with a *Lena* table. When arranging your office think about tall, lockable central cabinets, where you can keep important documents. The offer also includes a wardrobe – right hand opening only.

### Examples of the system's functions and advantages

- A free-standing pedestal placed under the desk ensures greater stability of the desk and gives you easy access to important documents within arms' reach.

- The offer also includes a practical wardrobe that opens only on the right side.
- The standard has a pull-out clothes hanger.

### BC-03

#### Rectangular desk/C-leg 160 × 68 and 137 × 68, h=74

- Metal legs in a new kwarc colour give the office a modern appearance.
- Desktop made of 25 mm melamine coated chipboard; the desktop edges are protected by durable, 2 mm ABS edge banding in the face colour of the MFC.
- The desktop has two cable outlets.

### Linea

- details, p. 23

### Club

- details, p. 31

Elements used

**DK-02**

Rounded additional desk for conference table  
160 × 40 h=74

- The extension enlarges the table, and the use of only one leg with an adjustable foot makes it possible to freely push two chairs up to the table.

## CONFERENCE room

A conference room is an important part of any company. From boardroom to general meetings, offers comfort and convenience to the participants.

Our tables are specially designed extensions offering a wide variety of configurations to meet your needs of the meeting.

In addition bookcases and cabinets can be used for display & storage purposes.

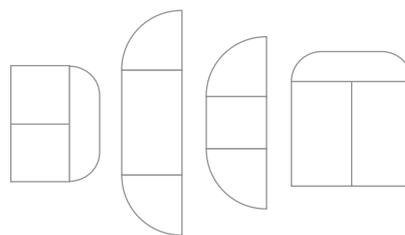

### Examples of the system's functions and advantages

→ Elegant metal handles.

→ The back of the cabinet is made of 3mm fibre chipboard in the face colour of the furniture's front.

→ Example of a table and extension combination

### BK-02

### Conference table 140 × 80 h=74

- Desktop made of 25 mm melamine coated chipboard; the desktop edges are protected by 2 mm, durable ABS edge banding in the face colour of the MFC.
- The legs and frame of the conference tables are made from metal profiles with a kwarc-coloured powder varnish.

### Samba

→ details, p. 31

Elements used

**RG-02**

**Bookshelves**  
80 × 35 h=111,4

- 30H bookshelves that can accommodate 3 rows of binders.
- Additional doors can be purchased to change to a cabinet.
- Possibility of adjusting the level of cabinets and bookshelves within a range of +15 mm – levels unevenness of the floor.

## HOME office

With our furniture, you can create an ideal, secluded home office. From our wide offer, you can easily select a desk of a suitable size and shape, and an appropriate cabinet or bookshelves, and can set up a mobile pedestal anywhere in the room. Depending on the type of work you do, you can choose an L-shaped desk, which you can easily put in the corner of a room, and at the same time have space for a printer or scanner. The collection includes traditional desks on panel end legs as well as stylish legs in a kwarc colour. Bookcases can be transformed into a cabinet by purchasing hinged doors.

### Examples of the system's functions and advantages

- For any desk, it is possible to install power modules which is placed under the desktop.

- All desks have protective feet that prevent scratching.

### BR-01

#### Rectangular chipboard desk 120 × 68 h=74

- Practical, standard desk.
- Desktop made of 25 mm melamine coated chipboard; the desktop edges are protected by 2 mm, durable ABS edge banding in the face colour of the MFC.
- The desktop has two cable outlets.

\* Min. quantity of an order in 1 colour: 1 unit

How can you create a warm and bright interior, or preserve its severity, with a limited palette of colours?

**First**, create a concept for the interior,  
**next** choose its atmosphere,  
**then carefully** select the colour scheme.

Get to work...

**The proper colour concept is the key to success**

To start with, there must be a vision, and later an interesting concept. Plan the colour – the colour of your interior. **Consider whether you want to introduce one of the seasons to the interior.** If you love the **springtime**, you should introduce predominantly the colour green to your interior, not only in different shades on the walls and floor, but also in accessories like a chair, blinds or curtains. Intense shades of green will bring to mind the green of springtime coming to life. If you like warmth, then introduce **summer** to your interior – try to add intense colours of rich orange and yellow. **Autumn** in an interior is conveyed by all shades of brown and wine-red. Like colourful autumn leaves, they introduce joy and an autumn atmosphere to the interior. If you value subdued colours, choose between grey, blue and black colours that bring a **winter** aura to an interior.

**How to choose a good colour for an interior and accessories?**

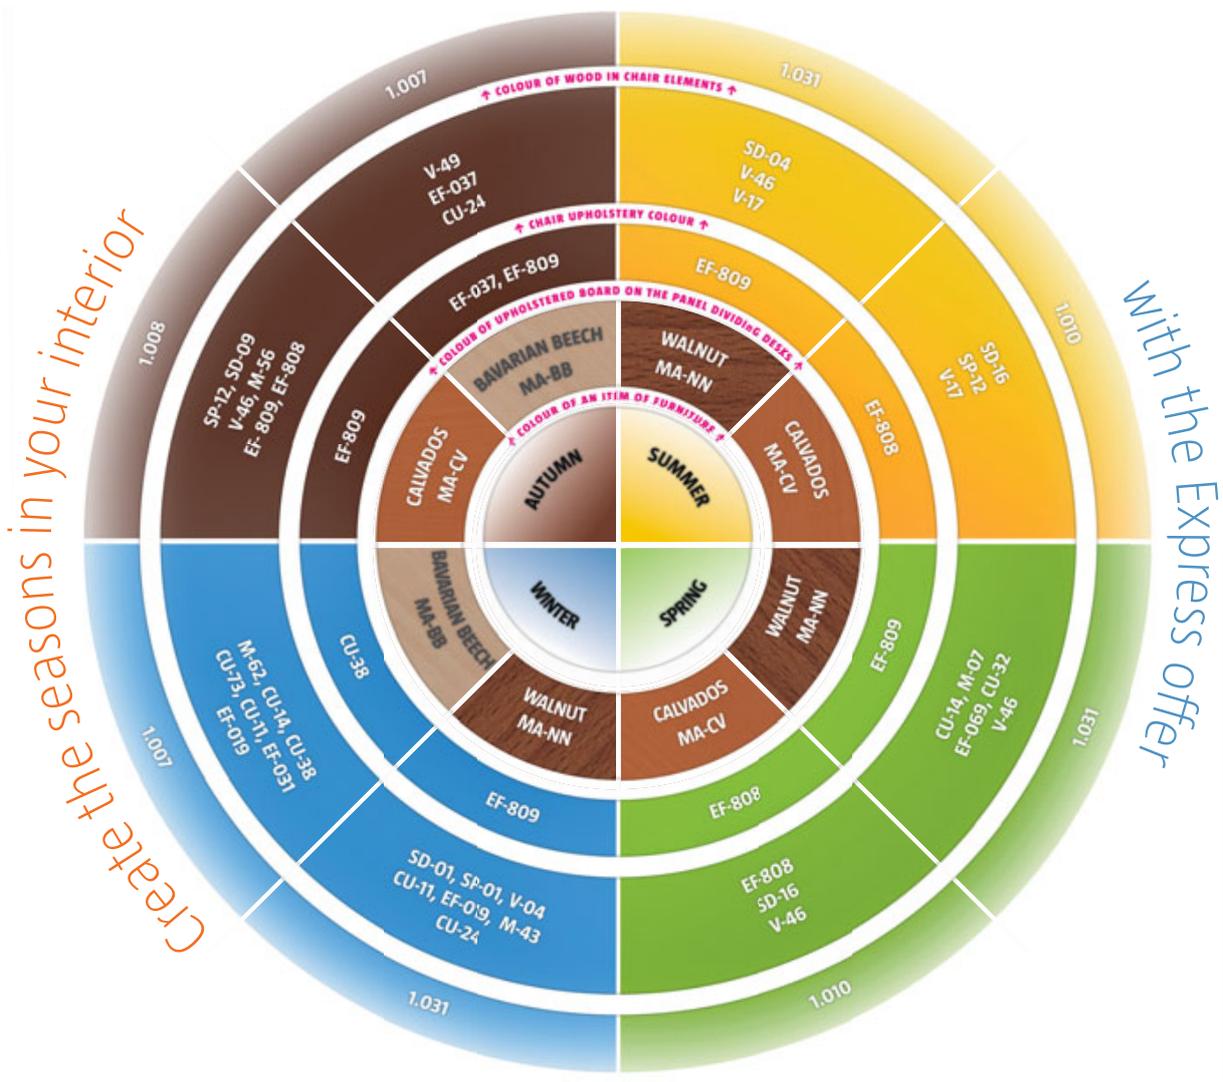

**Use of one colour in several shades** creates an impression of **homogeneity**, and the composition will be unified and harmonious. You will get such an effect regardless of whether you use warm or cool colours. When you **use two colours** in an interior, the **use of contrasting**, complementary colours creates a good effect, as they always interplay with one another, mutually enhancing and balancing

each other. The combination of orange and yellow colours will be very harmonious and cheerful. It brings to mind the warm spring sun. Cool greens, blues and greys used on smaller elements of the interior (chairs, floor) will be a good complement to the dominating warm colours.

**The choice of colours** should begin with the **selection of the basic colour** – but do remember that when you plan the colour scheme of an interior, you are planning all elements, from the walls and floor, to the furniture and accessories. To avoid colouristic monotony in an interior, it's worth choosing two basic colours to cover the walls and two complementary colours for accessories. Introducing too many colours causes disharmony and chaos. Colour combinations that have been appropriately worked out will give your rooms a sense of harmony, while colourful walls and tasteful accessories will be a pleasure to look at.

**How do you combine colours in the Express offer?**

The Express offer's colour scheme is very limited, with furniture available in 3 colours: the traditional, sunny colour of **Bavarian beech** brings a spring and summer brightness to an interior, **calvados** – the reddish colour of autumn leaves. **Dark walnut** – the colour of winter tree branches, creating a modern atmosphere of subdued colours.

## Important information

- The office furniture offer is a complete collection.
- Furniture dimensions cannot be modified.
- All products (with the exception of office furniture) have the Durability Test Certificate issued by the Furniture Industry Research and Implementation Institute P.U.R. Remodex sp.z o.o.
- All products come with a 2-year guarantee, and the gas lift in armchairs and swivel chairs are guaranteed for 4 years.
- The colours presented for product finishes may differ from the actual colours.
- All dimensions of chairs, tables and tabletops are given in millimetres [mm].
- Dimensions of office furniture are given in centimetres [cm].
- The Nowy Styl Company reserves the right to change the design or finish of products presented in this catalogue.
